

## ***Annual List of Obligated Projects Federal Fiscal Year 2017-18***

A/GFTC's Transportation Improvement Program (TIP) is a listing of federally-funded transportation projects that are programmed for design, construction, or purchase during a five-year span. Federal transportation law requires that an Annual List of Obligated Projects be made available to the public that shows obligations for all projects funded in part or in whole with federal dollars. This document includes obligation amounts for all federally-funded highway and transit projects within the A/GFTC Planning and Programming Area (Warren County, Washington County, and the Town of Moreau in Saratoga County) during Federal Fiscal Year 2017 (October 1, 2017 through September 30, 2018).

- ***Obligations***

The term "obligation" refers to funds that are set aside for a particular phase of a project. Although no phase can begin prior to obligation, the actual obligation of a phase does not necessarily mean that that phase has been initiated. Upon obligation, funds are available to reimburse expenditures incurred as a result of work attributed to advancing that particular phase.

Several projects show negative dollar amounts. Those values indicate "de-obligations". De-obligations can result from projects that are completed under budget, changes in fund sources, or prolonged project inactivity. Generally speaking, de-obligations do not indicate a straight removal of funding from a particular project.

- ***Data Organization***

The following headers are used in the data chart:

- **PIN** – (Project Identification Number) – This is the number assigned to the project by NYSDOT for the purpose of project tracking by State and Federal agencies.
- **TIP #** is the identifier assigned to the project by A/GFTC.
- **PHASE** is the element of the project that was obligated during FFY 16-17.
- **Trans Oblig Date** is the project obligation date.
- **FUND SOURCE** refers to the specific State or Federal transportation program(s) used to fund that phase of the project.
- **Description** is additional information about the project.
- **STATUS** indicates the progress of the project; APPVD =approved, ACTIVE = initiated (under design), CONST = construction obligation, COMPLT = completed
- **17/18** is the amount of federal funds that were obligated or de-obligated for the project during FFY 17-18.
