

Annual List of Obligated Projects

Federal Fiscal Year 2018-19

A/GFTC's Transportation Improvement Program (TIP) is a listing of federally-funded transportation projects that are programmed for design, construction, or purchase during a five-year span. Federal transportation law requires that an Annual List of Obligated Projects be made available to the public that shows obligations for all projects funded in part or in whole with federal dollars. This document includes obligation amounts for all federally-funded highway and transit projects within the A/GFTC Planning and Programming Area (Warren County, Washington County, and the Town of Moreau in Saratoga County) during Federal Fiscal Year 2019 (October 1, 2018 through September 30, 2019).

- ***Obligations***

The term "obligation" refers to funds that are set aside for a particular phase of a project. Although no phase can begin prior to obligation, the actual obligation of a phase does not necessarily mean that the phase has been initiated. Upon obligation, funds are available to reimburse expenditures incurred as a result of work attributed to advancing that particular phase.

- ***Data Organization***

The following headers are used in the data chart:

- **6 Digit PIN** – (Project Identification Number) – This is the number assigned to the project by NYSDOT for the purpose of project tracking by State and Federal agencies.
- **TIP #** is the identifier assigned to the project by A/GFTC.
- **Phase** is the element of the project that was obligated during FFY 18-19.
- **Fund** refers to the specific State or Federal transportation program(s) used to fund that phase of the project.
- **Admin Description** lists if the project was administered by NYS or by an entity of local government.
- **Project Title** lists the name and location of the project.
- **Total Cost** lists the amount of federal funds and local match.
- **Earliest Authorization Date** is the date of the initial project obligation.
